OUR 2022 GENDER PAY GAP RESULTS

WORKFORCE...

In line with the UK Gender Pay Gap Regulations, all companies with 250 or more employees are required to publish details of their gender pay gap and bonus gap.

ANALYSING OUR GENDER PAY GAP

The Gender Pay Gap is a calculation that compares the rates of pay for all employees within the organisation...

The Gender Pay Gap is influenced by many factors, including industry sectors and societal norms and does not consider differences in job function, job level, qualifications and experiences.

1. Ponticelli has seen progress in the overall % of female representation in 2022
2. A greater number of males in technical roles and more females in support roles; typically technical roles attract a higher salary than support roles
3. More males in senior positions within the company, senior roles attract a higher salary.
4. Bonus payments in 2022 have been impacted by legacy + client specific arrangements.

Notwithstanding our efforts, these demographics are reflective of the oil and gas industry, whereby the predominance of men in the offshore sector have influenced our gender pay gap. We are committed to taking steps to change this.

WHAT WE'RE DOING TO REDUCE OUR GENDER PAY GAP

We are reviewing our recruitment processes to ensure they are inclusive, transparent and free from bias.

We are working with industry bodies (OGTAP) to engage and promote diversity within our apprentice programmes.
